BIKE RACKS

Bring It®

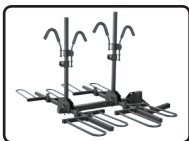

Help your customers Bring It® with a CURT bike rack. CURT's entire line of bike racks and accessories are retail packaged with detailed descriptions and diagrams. Our packaging makes it easy for the customer to identify their needs while learning more about each product.

CURT's bike rack line continues to expand with the addition of tray-style bike racks. Available for either two or four bikes, these racks are sure to help increase sales.

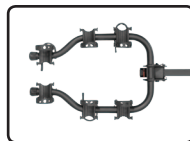

CURT bike racks utilize innovative design while providing many benefits to the customer. Our premium line of bike racks feature tapered arms, which make it quick and easy to mount small framed bikes.

Many of CURT's bike racks include a support strap and an anti-rattle base to help prevent bouncing and rattling. If you are looking to Bring It® with a quality product that sells, look no further than CURT bike racks.

Benefits of CURT's bike rack line

Expanding line of bike rack styles

Tapered arms on premium bike racks

Bike rack accessories

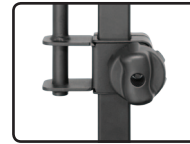

Any bike rack used with an 1 1/4" receiver tube requires the use of a support strap (CURT# 18050). Failure to use a support strap will void the warranty of the trailer hitch and / or bike rack. Do not install on a trailer or other towed vehicle.
