| Parts List |  |  |  |
| :---: | :---: | :--- | :--- |
| ITEM | QTY | PART NUMBER | DESCRIPTION |
| 1 | 8 | M10 $-1.25 \times 30$ | HEX TAP BOLT |
| 2 | 8 | $7 / 16$ | $7 / 16$ CONICAL TOOTHED WASHER |
| 3 | 2 | $7 / 16$ LOCK WASHER | HELICAL LOCK WASHER |

 - NO DRILLING REQUIRED - LOWER EXHAUST

## INSTALLATION STEPS

1. Underneath the rear of the vehicle, locate the driver and passenger side frame rails and the tie down brackets (loops) bolted to the frame rails. Remove both tie down brackets (with hardware) and return them to the vehicle's owner for reinstallation should the hitch ever be removed.
2. This hitch will fasten to the vehicle's frame where the brackets were removed. The hitch can be worked above the exhaust or the exhaust may be lowered temporarily for installation. Install the bolts and washers as shown. If interference exists between adjacent washers, substitute a lock washer for one conical toothed washer. Conical toothed washers are to be installed with toothed side towards the hitch brackets.
3. Torque all 10 mm fasteners to $48 \mathrm{lb}-\mathrm{ft}$.

## PERIODICALLY CHECK THIS RECEIVER HITCH TO ENSURE THAT ALL FASTENERS ARE TIGHT AND THAT ALL STRUCTURAL COMPONENTS ARE SOUND.
