NOTICE

Visit www.curtmfg.com for a full-color copy of this

instruction manual, as well as helpful videos, guides and much more!

Before you begin installation, read all instructions thoroughly.

Proper tools will improve the quality of installation and reduce the time required.

This installation requires:

Part removal

Periodic inspection of the trailer hitch should be performed to ensure all mounting hardware remains tight and structural components are secure.

To help prevent damage to the product or vehicle, refer to the specified torque specifications when securing hardware during the installation process.

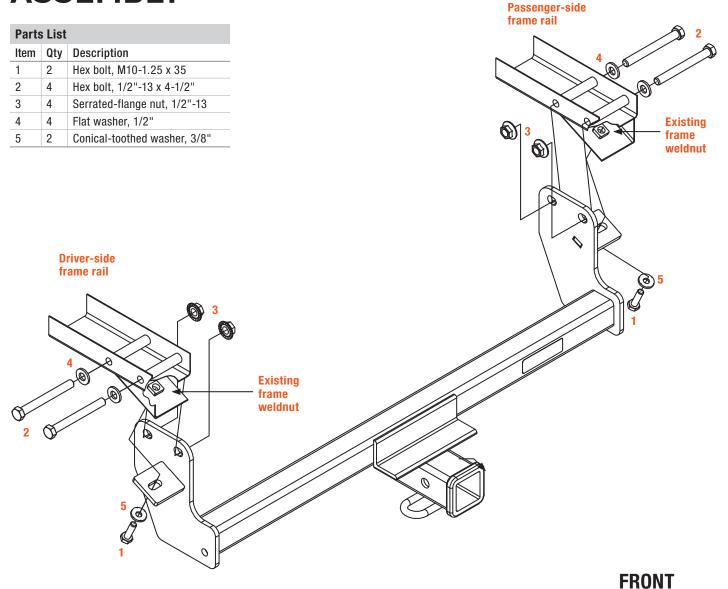

SAFETY INSTRUCTIONS

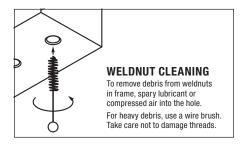

Safety glasses should be worn at all times while installing this product.

ASSEMBLY

REAR

Step 1

Using a 14mm socket, remove the tie down bracket located on the passenger-side frame rail by removing three (3) bolts.

Return the bracket and bolts to the owner.

Step 2

Raise the hitch into position. Loosely secure with 1/2" (#2, #3, #4) hardware using a 3/4" socket and wrench. Loosely secure the M10 fasteners (#1) with the 3/8" conical washers (#5) using a 17mm socket.

Step 3

Torque the 1/2" fasteners to 90 ft-lbs.

Torque the M10 fasteners to 45 ft-lbs.
