English

1. Remove felt liner under the dash by removing two plastic fasteners holding it in place (A). Under the felt liner locate the vehicle's electric brake control harness connector. The connector will be located underneath the dash and left of the steering column, attached to the top of a junction box (B).

2. Plug the brake control adapter into the vehicle's electric brake controller connector. Attach the wires from the adapter to the corresponding wires on the electric brake control, following the brake control manufacturer's installation instructions.

3. Complete the installation per the electric brake control manufacturer's instructions and mount the unit as directed. Perform test procedures as instructed.
